You asked

I am looking into UK ophthalmic anaesthesia practice. In accordance with the right for information under FOI 2000, I would be grateful if you could send some information regarding this.

I do not require patient specific information or any confidential data.

Please can you tell me what proportion of cataract surgery cases are done with local anaesthetic without an anaesthetist allocated?

Currently all cataract surgery performed under local regional block in the Ophthalmic theatres of Derriford Hospital, Plymouth, has an anaesthetist allocated to the list.
