Leading with excellence, caring with compassion

Clinical Engineering

Clinical Engineering offers a range of services for GP Surgeries, including local comprehensive maintenance service and repair agreements and an ad-hoc medical equipment repair service. Clinical Engineering aim is to help ensure your GP Practice medical equipment is kept in good working order and where required advise on disposal and replacement of devices. Our workshop services at Derriford Hospital are experienced in maintaining a wide range of mechanical and electrical medical devices including:

- ◆ Examination Couches
- ◆ ECG Recorders
- ◆ Blood Pressure Machines
- ◆ Dental Equipment
- ◆ Chiropody Equipment
- ◆ Physiotherapy Equipment
- ◆ Defibrillators
- ◆ Optometry Equipment
- ◆ Lung function devices

Our Commitment to you

Our services are designed to support individual organisation requirements with a cost effective solution. We will supply as part of agreement with you:

Pre-purchase assessment and advice
Annual inspections
Onsite maintenance for larger equipment
Calibration of medical devices
Repairs for portable items at our well equipped workshop
IEC 62353 Electrical Safety Checks
Equipment disposal advice

We will endeavour to respond to urgent requests within 24 hours during our normal working days.

For further information on our Service Level Agreements and ad-hoc repair service and procurement of medical devices please call Clinical Engineering on: **01752 431333**
