

MEMS

Medical Equipment Management Service

Services for Nursing and Care Homes

The Medical Equipment Management Service (MEMS) provides technical support to medical equipment users in Devon and Cornwall. The service provides whole life management of medical equipment from pre-purchase assessment through to disposal. A full equipment advice, safety and maintenance service is included.

Leading with excellence, caring with compassion

MEMS

Medical Equipment Management Service

MEMS offer Nursing Homes and Care Homes a local comprehensive maintenance service agreements and ad-hoc medical equipment repair service. MEMS aim is to ensure your medical equipment is in safe working order, including medical equipment end of life support and advice on replacement devices. Our workshop services at Derriford Hospital maintain all types of medical equipment including:

- ◆ Pressure Therapy Mattresses
- ◆ Syringe Drivers
- ◆ Patient Beds
- ◆ Hoists
- ◆ Stand and Walking Aids
- ◆ Wheelchairs
- ◆ Blood Pressure Monitors
- ◆ Suction Devices
- ◆ Defibrillators

Our Commitment to you

Our services are designed to support individual organisation requirements with a cost effective solution. We will supply as part of agreement with you:

Pre-purchase assessment and advice
Annual inspections
Onsite maintenance for larger equipment
Calibration of medical devices
Repairs for portable items at our well equipped workshop
IEC 62353 Electrical Safety Checks
Equipment disposal advice

We will endeavour to respond to urgent requests within 24 hours during our normal working days.

For further information on our Service Level Agreements and ad-hoc repair service and procurement of medical devices please call MEMS on: **01752 431333**
