

**Estates Services Provision Policy**

Date	Version
Jan 2015	V2

**Purpose**

To explain the areas of responsibility of the Estates Department and methods of communication to request works and repairs.

**Who should read this document?**

All in Site Services.

All Directorate, clinical, and departmental managers and all other staff to ensure they are aware of the services provided by the Estates function and how to utilise those services.

**Key messages**

It is the intention of the Estates Department to provide a comprehensive Estates Service to all properties for which the Trust is responsible.

This policy details the following:

- Details relevant legislation and regulations
- Details the functions of the Estates department
- Details the roles and responsibilities of the staff who manage the Estates department including: Associate Director of Estates and Planning and the Head of Estates Engineering
- Provides information about guidance the department needs to follow
- Details the Planet Facilities Management system
- Defines maintenance
- Details training, information and communication
- Details access to the site in order to carry out works
- Provides information about CAD drawings
- Details relevant legislation and guidance

**Accountabilities**

<b>Production</b>	Head of Estates Engineering
<b>Review and approval</b>	Health & Safety Committee
<b>Ratification</b>	Director of Planning & Site Services
<b>Dissemination</b>	Head of Estates Engineering
<b>Compliance</b>	Health & Safety Committee

### Estates Services Provision Policy

The Estates Services Provision sets out to explain the areas of responsibility of the Estates Department and methods of communication to request works and repairs.

#### What You Need to Know

It is the duty of the Trust to provide a safe and comfortable environment in which to carry out its business. The Trust delegates this responsibility to the Estates department.

The Estates department will manage and maintain the Estate<sup>1</sup> to provide a safe and comfortable environment for patients, staff, visitors and any other persons entering the site.

The core functions of the Estates department are as follows:

- To provide and distribute heating, ventilation, lighting, power, gas, medical gases, water services and drainage
- To provide a comprehensive maintenance service to plant, equipment and buildings
- To carry out minor capital works
- To provide a fire advisory service
- To produce, maintain, review and enforce safe systems of work, policies and other appropriate procedures

---

<sup>1</sup> The Facilities department (also part of Site Services) manage the grounds of the Estate.

## 1 Introduction

It is the intention of the Estates Department (part of the Site Services Directorate) to provide a comprehensive Estates Service to all properties for which Plymouth Hospitals NHS Trust (hereafter known as the Trust) is responsible.

## 2 Purpose, including legal or regulatory background

This policy sets out to explain the areas of responsibility of the Estates Department and methods of communication that can be used to request maintenance, new works, and any other Estates related issues. This policy has Trust wide relevance.

There are several pieces of legislation, regulation, and guidance that form the basis of this policy.

These include, but are not limited to the following:

- Health and Safety at Work Act 1974
- Control of Substances Hazardous to Health (COSHH) Regulations 2002
- Confined Spaces Regulation 1997
- Health Technical Memorandums
- Health Building Notes

## 3 Definitions

The Estates Department is responsible for the maintenance, both planned and reactive of the hospital estate.

### Definitions:

AE	Authorising Engineer
AP	Authorised Person
CAD	Computer Aided Design
DEL	Directly Employed Labour
DP	Designated Person
ERIC	Estates Return Information Collection
HBN	Health Building Note
HTM	Health Technical Memorandum
IPCT	Infection Prevention Control Team
MGPS	Medical Gas Pipeline System
PPM	Planned Preventative Maintenance
PTW	Permit to Work

## 4 Duties

The Trust is responsible for providing a safe and comfortable environment in which to care for and treat patients. It also needs to be a safe and comfortable environment for visitors and staff.

In order to manage and maintain the Estate, the Estates Department will carry out appropriate works to ensure a safe and comfortable environment, and where appropriate delegate work to general contractors, or specialist contractors to perform tasks or works as appropriate.

The functions of the Estates department are:

- To provide and distribute heating, ventilation, lighting, power, gas, medical gases, water services and drainage
- To provide a comprehensive maintenance service to plant, equipment and buildings
- To carry out minor capital works
- To provide a fire advisory service
- To produce, maintain, review and enforce safe systems of work, policies and procedures described in this policy
- Ensures the estate is compliant with current legislation

### **Roles and responsibilities**

#### **Chief Executive:**

- Is ultimately accountable for the management and maintenance of the estate, but herein delegates responsibility to the Director of Planning and Site Services

#### **Director of Planning and Site Services**

- Has Board responsibility for Site Services including the estate but delegates responsibility to the Associate Director of Estates and Planning

#### **Associate Director of Estates and Planning/Head of Estates**

- Assumes responsibility for the day to day management of the department and ensures that the service provided is effective, efficient, safe, and complies with current statutory legislation as far as reasonably practicable

#### **Head of Estates Engineering**

- Is responsible for the management of the engineering components of the Trust and to ensure they comply with current statutory legislation as far as reasonably practicable

#### **Head of Estates Buildings**

- Is responsible for the fabric of the building and to ensure they comply with current statutory legislation as far as reasonably practicable

**Health Technical Memoranda**

Health Technical Memoranda (HTM's) give comprehensive advice and guidance on the design, installation and operation of specialised building and engineering technology used in the delivery of healthcare. They are the main source of specific healthcare-related guidance for estates and facilities professionals<sup>2</sup>.

The Estates department will provide functions and services as per the HTM's, and adhere to the guidance in these documents.

There are nine core areas which are broken down as follows:

HTM 00	Policies and principles (applicable to all Health Technical Memoranda in this series)
HTM 01	Decontamination
HTM 02	Medical gases
HTM 03	Heating and ventilation systems
HTM 04	Water systems
HTM 05	Fire safety
HTM 06	Electrical services
HTM 07	Environment and sustainability
HTM 08	Specialist services

**Health Building Notes**

Health Building Notes (HBN's) give best practice guidance on the design and planning of new healthcare buildings and on the adaptation/extension of existing facilities.

**Planet Facilities Management System**

The Estates department use the Planet Facilities Management System. The Planet system supports the following:

- All aspects of planned and reactive maintenance
- Estates helpdesk
- Asset register
- Health & Safety
- Mobile work order and asset management
- Stores management and purchasing
- Customer contracts and job billing
- Web interface for call logging and customer feedback

The information in the Planet system can be used to analyse performance and plan maintenance schedules.

---

<sup>2</sup> HTM 00: Policies and principles of healthcare engineering

## **Maintenance**

Maintenance is divided into two types, planned/preventative and breakdown.

Planned preventative maintenance is designed to:

- Avoid breakdown of crucial plant and equipment
- Maintain safety standards
- Enable activities to be planned, thus keeping disruption to a minimum
- Ensure compliance with appropriate legislation

Breakdown maintenance is a repair service normally triggered by user department request and can be categorized into three groups:

- Routine repairs
- Urgent repairs
- Emergency repairs

### *Requesting Repairs*

Please see appendix 4.

### *Service Contracts*

Equipment of a complex or specialist nature is often covered by a service contract. Response times for repairs may vary depending on the terms of the contract.

### *Minor Works and Improvements*

Please see appendix 4.

### *Risk Management*

The associated risks with the operation of Estates will be managed by a process of prioritisation of work within available resources, using professional expertise. The Head of Estates working closely with Estates Services managers and other members of the Estates Department will lead this process.

Risks are managed via the risk register (Datix) and are escalated as appropriate to the Trust Executive.

## **Training, information and communication**

### *Training*

The Estates team will undertake training as appropriate, directed by Trust policy and procedures, as well as any training required to ensure registration and/or competency to perform their role.

### *Information*

The department will provide Trustwide alerts regarding maintenance, shutdowns, testing and any other works which may affect patients, staff or visitors.

### *Communication*

The Estates Helpdesk operates 24 hours a day, 7 days a week. The helpdesk can be contacted on (4)31300 and will raise work orders

## **Access**

Some areas of the hospital are not accessible to non-Estates staff. These include plant rooms, motor rooms, voids and roof spaces. Estates staff and external contractors may require access to these areas when carrying out work. The following items may require attention depending on the area in which the work needs to be carried out.

### *Induction Information and Guidelines for Contractors*

A suite of documents that all external contractors are required to read before working on site. Contractors are also required to complete an induction and a signed record is kept by all those who complete the induction.

### *Confined spaces*

Please refer to the Confined Spaces Regulations 1997 and the Trust Policy for Safe Employment of Contractors.

### *Hot Works*

Please refer to the Trust Fire Safety and Arson Prevention Policy for information.

### *Mechanical permits*

Please refer to the Trust Mechanical Services Design Briefing Note for information.

### *Medical Gases*

Please refer to the Trustwide Operational Policy and Procedures for Medical Gases documents for information.

*Asbestos*

Please refer to the Trust Asbestos Policy for information.

## **Records/drawings**

The Estates department will keep up to date records and (CAD) drawings. These are readily available in electronic and paper format, including legionella drawings.

When additions or alterations are made, current as fitted drawings and information are to be supplied to the CAD Technician. Operating and Maintenance (O&M) manuals are also to be supplied.

## **6 Overall Responsibility for the Document**

The Director of Planning & Site Services is responsible for ratifying this document. The Estates department has responsibility for the dissemination, implementation and review of this Policy.

## **7 Consultation and Ratification**

The design and process of review and revision of this policy will comply with The Development and Management of Trust Wide Documents.

The review period for this document is set as default of five years from the date it was last ratified, or earlier if developments within or external to the Trust indicate the need for a significant revision to the procedures described.

This document will be approved by the Health & Safety Committee and ratified by the Director of Planning and Site Services.

Non-significant amendments to this document may be made, under delegated authority from the Director of Planning and Site Services or the Associate Director of Estates and Planning by the nominated author. These must be ratified by the Director of Planning and Site Services and should be reported, retrospectively, to the approving committee.

Significant reviews and revisions to this document will include a consultation with named groups, or grades across the Trust. For non-significant amendments, informal consultation will be restricted to named groups, or grades who are directly affected by the proposed changes

## **8 Dissemination and Implementation**

Following approval and ratification, this policy will be published in the Trust's formal documents library and all staff will be notified through the Trust's normal notification process, currently the 'Vital Signs' electronic newsletter.

Document control arrangements will be in accordance with The Development and Management of Trust Wide Documents.

The document author(s) will be responsible for agreeing the training requirements associated with the newly ratified document with the Director of Planning and Site Services and for working with the Trust's training function, if required, to arrange for the required training to be delivered.

## **9 Monitoring Compliance and Effectiveness**

The Trust will undertake a regular audit of the processes specified in this policy. It should be noted that the responsibilities in this policy are legally enforceable and that managers (and employees where applicable) failing to uphold their responsibilities may find themselves in breach of internal disciplinary policies and legislation.

The Estates department are able to use the Planet Facilities Management software to analyse and assess performance.

The Estates department also has a series of Key Performance Indicators which it is assessed against.

## **10 References and Associated Documentation**

### **Regulatory legislation and applicable guidelines**

A list of appropriate regulatory legislation is detailed below (this list is not exhaustive):

- Health and Safety at Work Act 1974
- Management of Health and Safety at Work Regulations 1999
- Workplace (Health, Safety and Welfare) Regulations 1992
- Control of Substances Hazardous to Health (COSHH) Regulations 2002
- Reporting of Injuries, Disease and Dangerous Occurrences Regulations, 1995
- Confined Spaces Regulations 1997
- Control of Asbestos Regulations 2012
- Construction (Design and Management) Regulations 2007 (CDM)

Other applicable guidance:

- Health Technical Memorandums
- Health Building Notes

<b>Manager</b>	Associate Director of Planning and Site Service
<b>Directorate</b>	Planning and Site Services
<b>Date</b>	Jan 2015
<b>Title</b>	Trustwide Policy on Estates Services Provision
<b>What are the aims, objectives &amp; projected outcomes?</b>	To explain the areas of responsibility of the Estates Department and methods of communication requests for repair.
<b>Scope of the assessment</b>	
This EIA was undertaken with the Equality Lead and covers all protected characteristics.	
<b>Collecting data</b>	
<b>Race</b>	<p>There is no evidence to suggest there is a disproportionate impact on race regarding this policy.</p> <p>However, data collected from Datix incident reporting and complaints will ensure this is monitored.</p> <p>Consideration will be made if information provided is required in a different language for training purposes.</p>
<b>Religion</b>	<p>There is no evidence to suggest there is a disproportionate impact on religion or belief and non-belief regarding this policy.</p> <p>However, data collected from Datix incident reporting and complaints will ensure this is monitored.</p>
<b>Disability</b>	<p>There is no evidence to suggest there is a disproportionate impact on disability regarding this policy.</p> <p>However, data collected from Datix incident reporting and complaints will ensure this is monitored.</p> <p>Consideration will be made the requirement of reasonable adjustments when designing and planning new healthcare buildings and adapting/extending existing facilities to ensure compliance with the disability and access aspects of the Equality Act 2010</p> <p>Consideration will be made if information provided is required in an alternative format when providing information or training.</p>
<b>Sex</b>	<p>There is no evidence to suggest there is a disproportionate impact on sex regarding this policy.</p> <p>However, data collected from Datix incident reporting and complaints will ensure this is monitored.</p>

<b>Gender Identity</b>	<p>There is no evidence to suggest there is a disproportionate impact on gender identity regarding this policy.</p> <p>However, data collected from Datix incident reporting and complaints will ensure this is monitored.</p>
<b>Sexual Orientation</b>	<p>There is no evidence to suggest there is a disproportionate impact on sexual orientation regarding this policy.</p> <p>However, data collected from Datix incident reporting and complaints will ensure this is monitored.</p>
<b>Age</b>	<p>There is no evidence to suggest there is a disproportionate impact on age regarding this policy.</p> <p>However, data collected from Datix incident reporting and complaints will ensure this is monitored.</p>
<b>Socio-Economic</b>	<p>There is no evidence to suggest there is a disproportionate impact on socio-economic regarding this policy.</p> <p>However, data collected from Datix incident reporting and complaints will ensure this is monitored.</p>
<b>Human Rights</b>	<p>There is no evidence to suggest there is a disproportionate impact on human rights regarding this policy.</p> <p>However, data collected from Datix incident reporting and complaints will ensure this is monitored.</p>
<b>What are the overall trends/patterns in the above data?</b>	No comparative data has been used to date which means that no trends or patterns have been identified.
<b>Specific issues and data gaps that may need to be addressed through consultation or further research</b>	No gaps have been identified at this stage but this will be monitored via data collected from Datix incident reporting and complaints.
<b>Involving and consulting stakeholders</b>	
<b>Internal involvement and consultation</b>	Health and Safety Committee
<b>External involvement and consultation</b>	None
<b>Impact Assessment</b>	
<b>Overall assessment and analysis of the evidence</b>	<p>Consideration will be made if information provided is required in a different language when providing information or training</p> <p>Consideration will be made the requirement of reasonable adjustments when designing and planning new healthcare buildings and adapting/extending existing facilities to ensure compliance with the disability and access aspects of the Equality Act 2010</p> <p>Consideration will be made if information provided is required in an alternative format when providing information or training.</p>

<b>Action Plan</b>				
<b>Action</b>	<b>Owner</b>	<b>Risks</b>	<b>Completion Date</b>	<b>Progress update</b>

**Requesting works from Estates**

Works can be requested from Estates in the following ways.

*Requesting Repairs*

Requests for repairs (general or emergency) must be telephoned to the Estates Helpdesk (x.31300) which is manned at all times.

*Logging a fault on the Planet Facilities Management system*

Alternatively, faults can be logged directly on to the Planet Facilities Management system. This is the system used to administer all planned and reactive maintenance.

This can be found at: <http://picts013/planet%20fm%20enterprise/>

*Minor Works and Improvements*

Requests for alterations or improvements should be submitted via an appropriate request form available from the Estates Helpdesk (x.31300) or on the department's intranet page which can be found at

<http://staffnet.plymouth.nhs.uk/Departments/OtherSupportServices/SiteServices.asp>
