You asked

Please could I request an up to date list of all contractors, subcontractors and suppliers that have or will be involved with the building work at Derriford Hospital - Lightwell Theatres Project?

Our reply

The Lightwell Theatres Project is being procured through the NHS Procure 21+ Framework. The appointed Principal Supply Chain Partner is Kier, and their sub-contracted supply chain members include Hoare Lea, Stride Treglown, Edmund Shipway, and Faraj Consulting. As design development continues other consultants and building and mechanical and electrical infrastructure sub-contractors will be consulted and appointed.

The Trust is being independently advised in respect of the roles of Cost Advisor, Project Manager and Contract Supervisor by Currie and Brown who have been appointed through the NHS Shared Business Services Framework.
